Extreme Heat Watch in effect across Illinois; Heat Advisory in Northwest Indiana

## Key Messages:

- Dangerous heat and humidity will impact the region Wednesday through Thursday.
- The combination of hot temperature and high humidity levels will make it feel  $\geq 105^\circ$  during the day and  $\geq 75^\circ\text{F}$  overnight.
- Heat relief likely Thursday night into Friday as storm chances increase with a cold front.

Difference between an Extreme Heat Watch and Extreme Heat Warning

## EXTREME HEAT WATCH

---

An Extreme Heat Watch is issued when **dangerous heat is possible**.

Reschedule outdoor activities in the coming days. Make sure that children, the elderly, and pets have a place to cool off during the heat.

---

### Be Prepared.

weather.gov

## EXTREME HEAT WARNING

---

An Extreme Heat Warning is issued when **dangerous heat is happening or about to happen**.

Avoid heavy activity & direct sunlight. Stay hydrated, find a cool indoor place, and check on children, elderly & pets.

---

### Take Action!
